

Aus einem nahen Land

From A Nearby Country

A film by Manfred Neuwirth

Österreich 2015 | 80 min | 1:1,77 | Dolby Digital 5.1

The film is set in and around Kritzendorf, a small village by the Danube northwest of Vienna. The Vitovec family, neighbors of the filmmaker, makes a living growing wine. That's hard work. Manfred Neuwirth explores familiar territory even though some images of *Aus einem nahen Land* seem so unreal they might be science fiction. An experimental documentary in 24 shots.
